VintageView goes Cork Forward with the brand new Vino Rails

Denver, CO | The Vino Series is growing with an homage to traditional wine storage.

Introducing Vino Rails, the latest addition to our single-bottle Vino Series Collection. These rails let wine float on the wall in the most minimalist fashion, showcasing wine in traditional “cork forward” fashion with contemporary flair. These industry-first displays connect direct to drywall, masonry or wood surfaces — no backer board needed.

Vino Rails feature ultra slim rods jetting out from the wall, allowing bottles to seemingly float on air. Aluminum collars are required for drywall installs, and are optional for other installations.

Vino Rails are available in milled aluminum and anodized black finishes.

This product is patented through U.S. Patent Numbers 6991117 and 7850017.

MSRP:

- Vino Rails \$13
- Vino Rails with Collars (required for drywall installs): \$14

About VintageView Wine Storage Systems

Since 2001, VintageView has been the leader in contemporary wine storage with our patented label-forward products. Our product catalog features an array of metal-based wine racks that are adaptable for collections large and small, private and commercial. Based in Denver, Co., we distribute and sell our rack solutions all over the world. Learn more at www.vintageview.com.
